

Locksmiths 247 vs the Dublin Locksmith Market

Where **locksmiths247.ie** stands today in Google Ads, the local map pack, and organic results for “locksmith dublin”, “locksmiths near me” and the main Dublin area keywords — and the specific moves that beat the competitors. Advertiser data comes from Google's own Ads Transparency Center (region: Ireland, last 30 days); local rankings were captured live from Google Maps localised to Dublin.

33

your live ad creatives (#3 most active advertiser in the market)

13

competitors verified running Google Ads in Ireland (last 30 days)

39

competitor domains checked in the Ads Transparency Center

10

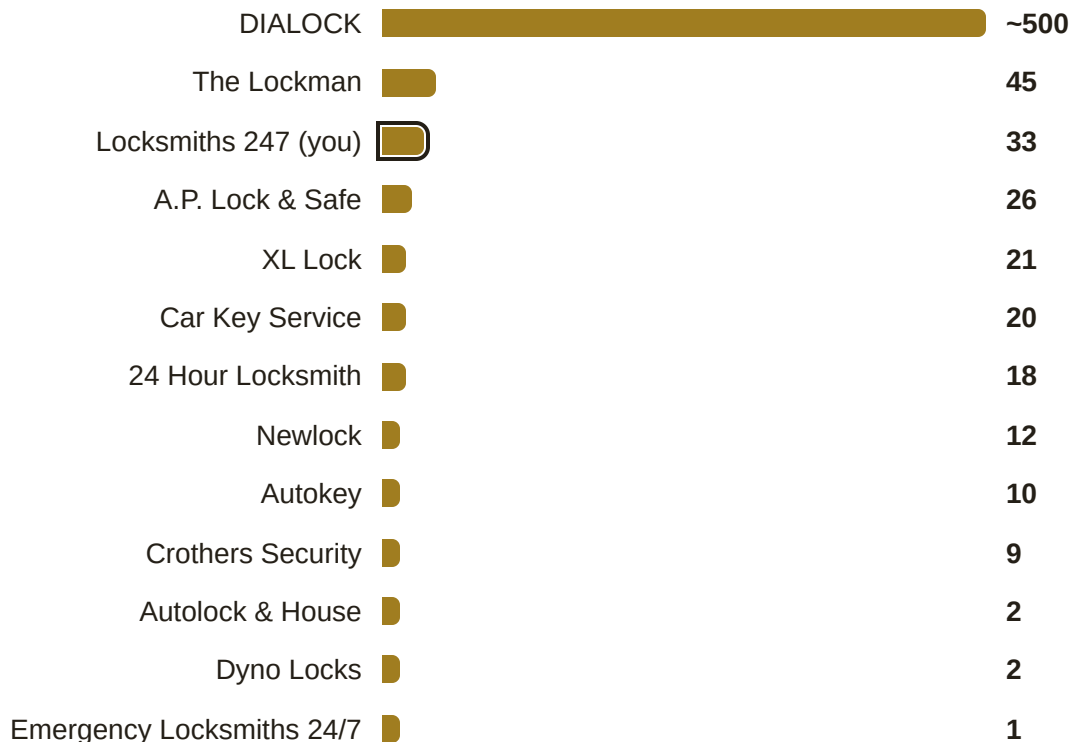

keywords mapped in the Google local pack

SECTION 1 · GOOGLE ADS

Who's paying for locksmith clicks

Every domain that appears on page one for the target keywords was checked against the [Google Ads Transparency Center](#) with the region set to Ireland and the window set to the last 30 days. **13 of 39 checked domains are actively running Google Ads** — the rest rely on organic and local rankings. You are the **#3 most active advertiser by live creatives**.

Live ad creatives per advertiser — Ireland, last 30 days

Creative count is Google's own figure for ads shown in Ireland in the last 30 days. More creatives usually means more campaigns and ad groups, not necessarily more spend.

Network alert: the verified advertiser “Slandala Agus Glais Teoranta” runs ads for multiple domains at once: xlock.com, emergencylocksmiths247.ie. One operator, several brand sites — they occupy more than one ad slot's worth of presence in the auctions they enter.

Not advertising right now (organic/local only): Ability Locks, Ace Locksmiths, Auto Locksmiths (D&F), BANC Locksmiths, Baggot Locksmiths, Brown Brothers, CarKeyRepair.ie, Dublin Locksmiths, Dyno-Lock (dyno-lock.ie), ECS Locksmiths, Expert Security, Fogarty Lock & Safe, Keyzone, Local Locksmiths, LockSecure, Locksafe, Locksmith in Dublin, Locksmiths 365, Locksmiths Dublin (locksmithsdublin.ie), Locksmiths Dún Laoghaire (site), Locksmiths.ie, Nokego Security, Secure Lock, Smithlock, The Locksmith Dublin Boss, United Locksmiths. Several of these (Baggot Locksmiths, Nokego) have verified advertiser accounts but showed no ads in Ireland in the last 30 days — dormant accounts that could switch on at any time.

Evidence — Transparency Center captures (live creatives by advertiser)

The screenshot shows a Google search result for 'Some-Day Lockout Service'. The ad features a blue header with the text 'Some-Day Lockout Service' and a list of services: '• 24/7 Emergency • Locksmiths • Cars • • Open Hours • Locksmiths • Locks'. Below this, it says 'Quick, reliable emergency response. Local locksmiths open locks & replace keys now.' At the bottom, there are links for 'Website', 'Call', and 'Directions'. The advertiser name 'slandale agus glais teoranta' is displayed at the bottom of the ad, along with a 'Verified' badge.

SECTION 2 · YOUR ACCOUNT

Audit of your live ads & landing page

Read from your live creatives in the Transparency Center and your landing pages on locksmiths247.ie. What's working, what's leaking Quality Score, and what competitors are doing that you aren't.

What's already good

- **Volume and structure:** 33 live creatives with per-area ads (“Swords Locksmiths247™”, “Locksmiths247™ Tallaght”) and a separate auto locksmith theme — most rivals run one generic campaign.
- **Image assets** on several ads (van + branded alarm-box shots) — very few locksmith advertisers in Dublin use these; they earn extra SERP real estate.
- **Offer language:** “Quotes & Fixed Charges”, “Dispatched in 15min” — concrete and credible.
- **Landing page trust stack:** PSA licence #00709 on-page, Garda-vetted line, named Lynch team with photos, freephone 1800 47 47 47 clickable everywhere, physical shop at 20 Upper Abbey Street.

What's leaking money

- **Fix** “**Lock Smith Service At DoorStep**” — “Lock Smith” as two words and “DoorStep” mid-caps reads mistyped, and “locksmith” as one word is what Google matches against. It also breaks your own ™ branding. One weak headline drags CTR on every ad it rotates into.
- **Fix** **Truncated headline:** “Lock Smith Service At DoorStep - Best Price Guar...” — the second headline exceeds its slot. Keep each headline ≤30 characters so “Best Price Guarantee” actually renders.
- **Improve** **Display paths:** your ads show locksmiths247.ie/free_call_out/open_24hrs — underscores look technical. Display paths are free ad copy: use */Dublin/24-7-Callout* or */Tallaght/Emergency*.
- **Improve** **No prices in copy:** your own site says average labour €70, but no creative leads with a number. Locksmiths 365 advertise “Only €90” organically; in ads, a concrete “Lockouts from €70 — Price Agreed First” beats every vague “affordable prices” in the auction.
- **Fix** **Your Google Business Profile is your weakest asset:** “Locksmiths 247 - Locksmith Dublin” shows 4.1★ — the lowest of any major player (Dyno 4.8, Lockman

4.9, Baggot 4.7, Nokego 4.9). It cost you the map pack: you appear top-5 in only one of the eleven mapped local queries. The map pack sits *above* your paid slot on “near me” searches — you are paying for clicks while the pack takes the calls.

- **Improve Landing page mismatches:** the Swords ad lands on the generic 24-hr page rather than a Swords page, and the quote form asks for vehicle details on non-auto enquiries. Tighter ad-to-page match raises Quality Score and lowers your CPC for free.

SECTION 3 · THE MAP PACK

Local rankings — where “near me” is won

For emergency-intent searches the Google Business Profile pack sits above everything — including your ads — and takes the caller. These rankings were captured live from Google Maps with the viewport centred on each area.

Local share of voice — top-5 appearances across all mapped keywords

Dyno Locks - Locksmiths Dublin · 4.8★		7
Baggot Locksmiths · 4.7★		5

SECTION 4 · ORGANIC

Organic rankings by keyword

Web search index results (Irish-intent queries), August 14 2026. Google.ie SERP scraping is blocked from this network, so orderings are an approximation of Google.ie organic; Irish-relevant results only, US/other Dublins excluded.

Dyno Locks owns organic. They rank **#1 on 4 of the 7 keyword groups** below and appear on page one for **all 7 of them** — the only business in the market with full coverage. Add their 4.8★ profile in the top 5 of the map pack on 7 of 11 local queries and Dyno gets its leads free, which is exactly why they only bother running 2 paid ads. Their moat is a deep network of area pages (Tallaght, Dún Laoghaire, Rathfarnham, South Dublin...) built over years. You will not out-rank that this quarter — the plan below beats them where they are absent: the paid auction, pricing transparency, and the after-hours window.

Organic share of voice — page-one appearances across the tracked keyword groups

Number of keyword groups (of 7) where the domain appears on page one. “×#1” marks how often it holds the top spot.

Organic · “locksmith dublin”

SECTION 5 · BATTLE PLAN

How to out-rank and out-bid them

1 · Fix the map pack before spending another euro on “near me”

Your 4.1★ profile is the single most expensive number in your business: the pack outranks your paid slot on emergency searches, and Google feeds profile quality into local ad serving too (your location assets inherit it). Target: **4.6★+ and +10 reviews per month**.

- SMS/WhatsApp the review link the moment the van door closes — the Lynch team's named, face-on branding is perfect for “please mention Ken/Barry/Cliff in your review”. Aim at your last 200 satisfied jobs to dilute the old low ratings.
- Reply to every existing 1–3★ review, factually and calmly — replies are ranking signals and read by the next caller.
- Fill every GBP field: primary category Locksmith, secondary Emergency locksmith service; services list per suburb; photos of vans, shopfront, team; Q&A seeded with “do you charge a call-out fee?”.

- Your Abbey Street shop is a genuine advantage — most rivals are service-area-only profiles. Post weekly (jobs done in named suburbs) to keep the profile active.

2 · Restructure the account around intent × area

You already have area ads — finish the job. Four intent campaigns (Emergency lockout · Lock change/security · Auto keys · Commercial), each split into tight ad groups per area (city centre, North, South, West, plus the suburbs you already target: Swords, Tallaght, Dundrum, Dún Laoghaire, Blackrock, Rathfarnham). Every ad group: one RSA, area-matched final URL, area name pinned in Headline 1 or 2.

Dayparting: most rivals run small budgets that exhaust by evening; The Lockman is the only always-on heavyweight. Add +20–40% bid adjustments 6pm–2am and weekends, when intent is desperate and auctions thin. Pair with a **call-only campaign** for “locked out” / “emergency locksmith near me” after-hours — a stressed caller at 1am does not want a website.

3 · Rewrite the weak creatives

Drop-in replacements (all within character limits) — fix the typo ad first:

Emergency · Dublin (RSA headlines to rotate/pin)

H1 (pin): Locksmiths247™ Dublin · H2: Lockouts From €70 — Fixed First · H3: At Your Door In 15–30 Min · H4: PSA Licensed & Garda Vetted · H5: Open Now — 24/7 Callout

Display path: locksmiths247.ie/Dublin/24-7-Callout

D1: Price agreed before we drive. No hidden call-out fees. Freephone 1800 47 47 47. D2: Local Lynch family team, 20+ years in Dublin. Non-destructive entry where possible.

Area template · Dún Laoghaire example

H1 (pin): Locksmith Dún Laoghaire · H2: Locksmiths247™ — 20 Min Away · H3: Fixed Price Before We Drive · H4: 24/7 Emergency Lockouts

Display path: locksmiths247.ie/Dun-Laoghaire/Locksmith

D1: South Dublin van on the road now. Homes, cars & business locks. Freephone 1800 47 47 47.

Auto keys

H1 (pin): Car Key Replacement Dublin · H2: All Makes — Cut & Coded · H3: Cheaper Than The Dealer · H4: Mobile — We Come To You

Display path: locksmiths247.ie/Car-Keys/Mobile

Assets to load on every campaign: call asset (1800 47 47 47), location asset (link the GBP — another reason to fix it), callouts (PSA Licence 00709 · Garda Vetted · Fixed Quotes · Insured), structured snippet (Services: Lockouts, Lock Changes, Car Keys, Safes, Alarms), price asset (Lockout from €70 · Lock change from €89 — use your real floors), and keep the image assets running.

4 · Exploit what the data says about each rival

- **DIALOCK / locksmithservice.ie (~500 ads):** the real paid heavyweight — an auto-generated creative farm (per-area call ads, “Call (01) 223 8734”), and the only rival already showing *Seller Ratings stars (4.8★, 99 reviews)* under its ads. Do not try to match creative volume; match their assets (stars, call-first) and beat them on authenticity — their brand is two years old, yours has a shop and 20 years.
- **The Lockman (45 ads):** their whole rotation funnels to one generic emergency page and leans on “24/7” claims. Beat them on specificity: prices, named team, PSA licence, area pages. Don't out-shout — out-trust.
- **A.P. Lock & Safe (26):** heritage angle (“since '77”), strong in south suburbs organic. Your counter: speed + fixed pricing; they publish neither.
- **The Slándála network (XL Lock 21 + Emergency Locksmiths 24/7):** one operator, multiple lookalike brands, anonymous. Your counter-copy: “A real Dublin shop — visit us on Abbey Street”. Anonymous networks can't match a face and a counter.
- **24 Hour Locksmith (18):** bids your core emergency terms; sole-trader entity. Out-cover them with assets (images, prices, seller ratings) they don't run.
- **Dyno Locks (2 ads):** the organic king — #1 on most keyword groups, page-one everywhere, 4.8★, top-5 map pack on 7 of 11 local queries — and barely advertising because they don't need to. Two consequences: (a) their strongest keywords are undefended in the paid auction — own the ad slots above their #1 organic listing and you intercept their demand; (b) long-term, commission a proper area-page programme of your own (real content per suburb, not find-and-replace) because organic is the only channel where they currently can't be beaten.
- **Baggot & Nokego (0 ads, dormant accounts):** they own the city-centre pack. When they wake up, your defence is being #1 in ads with better assets already earned.

5 · More ways to sharpen the ads

- **Match types with intent:** put your core money terms (“emergency locksmith dublin”, “locksmith near me”, “locked out of house”) in exact-match ad groups with the highest bids, and run one phrase/broad discovery ad group per campaign purely to harvest new search terms — promote winners to exact weekly.
- **Dynamic location insertion:** in area campaigns use `{{LOCATION(City)}}` in a headline so the ad mirrors the searcher's suburb even where you don't have a dedicated ad group yet — instant relevance across all of Dublin's villages without 40 more ad groups.
- **RSA hygiene:** 8–10 genuinely different headlines per RSA (offer, speed, trust, price, area, brand), pin only what must always show (brand + phone), and aim for “Excellent” Ad Strength — Google gives better slots to higher-strength RSAs at the same bid.
- **Sitelinks that sell:** Price List · Car Keys · Areas We Cover · Meet The Team. The Lockman already runs “Price List” as a sitelink; not having one makes you look like you're hiding prices.
- **Remarketing beyond the emergency:** a lockout is one-and-done, but lock upgrades, smart locks, anti-snap cylinders and commercial contracts have a consideration cycle. Build a remarketing audience from your non-emergency pages and run a small display/demand-gen budget for “upgrade your locks” — nobody else in this market does any follow-up marketing at all.
- **Geo bid layering:** bid up the high-value postcodes (D4, D6, Foxrock, Killiney, Dalkey — bigger homes, higher-spec locks, commercial density) and bid down areas that historically produce price-shopping calls.
- **Seasonality:** lockout searches spike in the dark months (October–January) and around moving dates (start of month, post-bank-holiday weekends). Raise budgets into those windows rather than spreading evenly.
- **Test Performance Max carefully:** DIALOCK's ~500-creative footprint is what an automated/PMax-style build looks like. If you test PMax, feed it call conversions only, add brand exclusions, and watch search-term insights weekly so it doesn't cannibalise your exact-match search campaigns.
- **Manage to cost-per-call, not CPC:** review call recordings weekly; a €9 click that books a €200 commercial job beats a €3 click from a price shopper. Kill ad groups by cost-per-booked-job, not by click price.

6 · Measurement & hygiene

- Your AW-1071771702 tag is live — make sure **calls are the primary conversion** (call assets + Google forwarding numbers + call-from-website tracking, count calls ≥40s), and move campaigns to Target CPA once you log 30+ call conversions/month.
- Weekly search-terms mining. Starting negative list: *jobs, course, training, apprenticeship, DIY, how to, pick a lock, wiki, free, timpson, cheap* (keep “cheap” only if you don't want bargain hunters).
- Collect Google-syndicated reviews (Trustpilot/Reviews.io) toward **Seller Ratings** — the star row under ads needs ~100 reviews in 12 months. DIALOCK already shows 4.8★ seller ratings on its ads — until you match it, their ad physically outshines yours in the same auction. This is now table stakes, not a nice-to-have.
- Budget split to start: 55% emergency · 25% auto keys · 20% area/commercial. Estimated €3–€8 CPC on core emergency terms (industry estimate — verify in Keyword Planner with your own account data).

Method & limitations. Advertiser status, verified entities and creative counts: Google Ads Transparency Center, region Ireland, last 30 days, captured 14 Aug 2026 — Google's own advertiser disclosure data, authoritative for who is advertising and with what creatives, but it does not expose per-keyword ad positions. Live Google.ie ad-slot screenshots could not be captured because Google serves automated-traffic checks to this network; verifying exact ad positions per keyword needs a check from an Irish IP or a rank tracker with an Irish location. Local rankings: captured live from Google Maps with the viewport centred on each area — the closest public proxy for the local pack. Organic listings: compiled from Irish-intent web-index results and cross-checked against the sites; treat ordering as indicative rather than a pixel-accurate Google.ie SERP. All screenshots are unedited captures. CPC figures are labelled industry estimates, not measured data.
